Cincinnati Parties Will Build a Loose Leaf Warehouse Here

The Farmers' and Shippers' Warehouse Company of Cincinnati have taken an option on ground adjoining the Farmers' and Planters' Loose Leaf Warehouse in Forest avenue. If the project succeeds it is the purpose of the Cincinnati promoters to erect thereon an immense loose leaf warehouse to be operated in connection with their Cincinnati houses.

Maysville is certainly spreading out as a loose leaf tobacco market, and if the ratio of increase continues she will soon be neck and neck with Louisville and Lexington as to amount of sales made and tobacco handled.

FOR PRESIDENT,
WILLIAM HOWARD T. FT.

The Fulton Daily Leader thus painted the picture of one "Rufus Vansant," whom John C. C. Mayo's money made Chairman of the Democratic State Central Committee:

An Estimate of Rufus "Wallingford" Vansant. Vansant, the biggest four flusher and most ignorant and uncouth piece of humanity ever engaged in Kentucky politics is seeking through the aid of John Mayo's money and Percy Haly's chicanery to be elected chairman of the Democratic State Committee. Vansant is one of the commonest scurbs in Kentucky and in point of intellect would compare unfavorably even with Bill-17-Frost, of Graves county.

"Besides lacking every qualification necessary from to be party chairman, Vansant is thoroughly unreliable and can never be depended on to back up his word. In fact, this is why Percy Haly has permitted him to get in the race. Vansant will do the promising, and then, when the time comes to deliver will laugh brazenly and think he has done a very smart thing by deceiving a constituent.

"If Vansant is made chairman of the Democratic party, the state will go Republican at the next election of State officers.

"Placed at the head of the campaign committee by McCreary supporters last year, Rufus "Wallingford" Vansant was, as everybody knows, a mere figurehead. He had no hand in conducting the campaign, was not permitted to select the other members of the campaign committee, although the resolutions so provided, and in fact was looked on as a drone, a fat head and a sort of half wit, possessing more money than gray matter. He received his instructions frequently, as his memory is said to be bad. He was told what his keepers wanted him to know and was seldom permitted to wander out alone. When the campaign was over this fellow was told that his splendid management of the campaign had brought about the great victory. Rufus grinned like a Cheshire cat. Poor deluded Rufus! "When ignorance is bliss 'tis folly to be wise."

Candidates cannot give cigars to voters in Ohio. The law is calculated to improve the Ohio voters as insurance risks, anyway.—Houston Post.

Of all the fool laws on the records the ding-doffedist is the one compelling saloon keepers to take down all blinds from their windows and doors and thus permit the public to see any and every one take a drink. Most men won't bother about that however, as they do not care who sees them drink as long as they want the drink and have the cash to pay for it. The attempts to give the rubbernecks a look in at the barkeep and the mixologist as he concocts the inviting cocktail and the ambrosial highball is quite too amusing—besides, as the politician would remark, its "un-constitutional." If the saloons must take down their blinds, the clubs must do likewise, and there you are.

One of the deceptive points harped on by the third-term touts is that the Roosevelt majority in 1904 was the largest ever given a Republican candidate.

The little joker in this case is the omission of the fact that the vote for Parker, the Democratic nominee, was extraordinarily small. Taft, in 1908, received the largest vote ever cast for a Republican presidential candidate. His total was 7,878,908, while that for Roosevelt in 1904 was 7,623,486. Third-term flummery on this point invariably omits the fact that Parker's total vote in 1904 was only 5,077,911, or less than that for Cleveland in 1888, and about 1,500,000 less than that for Bryan in any of his three battles. Roosevelt is urged as an astonishing vote-getter, while the truth is that Taft led him and all other Republican candidates of the past in the total vote received.

Presidential preparations this year indicate that there are over 8,000,000 Republicans in the country. Not one-fifth of them have taken part in the presidential primaries held. It is the part of wisdom not to forget the big majority that have not yet expressed themselves on candidates. They look to the national convention, as usual, to make a platform and ticket. It is not their belief that the convention of 1912 can be bullied in advance or that it will be less competent and courageous than any of its predecessors in asserting its rightful representative authority. The idea of the "grand Monarch" that "I am the State" will be queer stuff to try on a Republican National convention, one of a series that has ably shaped the control of government, with little interruption, for fifty years.—St. Louis Globe-Democrat.

TAKING IT TO THE PEOPLE

A GREAT deal is being said nowadays thruout this country about taking public problems direct to the people. This is what President Taft and Col. Roosevelt have been doing lately, and what all those interested in great public questions must do more and more as the years go by.

In the forthcoming Chautauqua here many important problems will be discussed. It is impossible for all the people in the United States to attend any one Chautauqua. The Chautauqua must be taken to the people eventually in nearly every county of the land where the population warrants it. The Redpath Bureau under whose direction the Chautauqua in this county is being given this year, is the greatest factor in the world today in this work of carrying a Chautauqua Program to the people. More than 250 Chautauquas are operated under Redpath management and the number is rapidly increasing.

Send word to all your friends to come to our forthcoming Chautauqua. Especially if they have never before attended a Chautauqua program, it will be a revelation to them.

SALESMAN GETS HIS

Took To Fortune Teller's Pleading To Tune of Ten Dollars

Georgetown News Democrat

That gypsies do not neglect to ply their avocation, even during observance of death of their rulers, is found in the report circulated that a rig from the livery stable of Frank Taylor at Higginsport was detained while passing the camp near Blount's by one of the women fortune tellers. A traveling salesman was being conveyed to different points and he fell to the pleadings of the fortune teller. When the "signs were read" the man found that he had but a ten-dollar bill. The woman got hold of this under pretext that she could get it changed among the members of the clan. Not returning, a search was made, but no trace of her could be found. It is said that she turned the money over to members of the clan and disguised herself by changing her costume. At least the man lost the entire amount.

A slip of the tongue may cause many heart aches.

It is well said that there is no love so blind as the love of money. It has caused the downfall of many otherwise useful men.

CONCRETE HIGHWAYS NOW

Many Ohio Counties Taking Up With Work, Which Needs No Repairs

The latest step in road building is concrete roads. This method is being taken up by county commissioners in several sections of Ohio. In Ross county last week a section of the road was ordered built, while the commissioners of Franklin, Madison and Union counties have joined in the building of a nine mile stretch of such road.

The Franklin county commissioners visited Detroit some time ago and were greatly impressed with the concrete roads that enter that city. They have been built four years and were in perfect condition. Not a cent had been spent in repairs. Water and macadam roads constructed at the same time had necessitated the expenditure of large sums to keep them in condition. This has been the experience with macadam roads. A large sum is necessary each year to keep them in condition.

The cost of the concrete construction is said to run from 10 to 20 per cent. more than the regular macadam roads, but the expense of upkeep, it is said, would be the means of saving money in the long run.

The state highway department has experimented with the concrete roads already constructed. The cost is said and pronounced them the best which to be less than brick.

BACKACHE NOT A DISEASE

But a Symptom, a Danger Signal Which Every Woman Should Heed.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Read about Mrs. Woodall's experience.

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and an enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

SMITH BROTHERS

Have Abandoned All Hope of Intervention on the Part of the Governor and Are Resigned to Their Fate

The Louisville Evening Post says: "In the annex or death house of the Kentucky branch Penitentiary at Eldysville, Lyon county, Ky., are confined eight men awaiting the death penalty in the electric chair, five of them white and three black, with five more recently convicted that will be brought there perhaps this week."

"Charles and James Smith, Negroes, brothers, who were to have died on December 23rd last for the murder of an old Negro in Maysville, known only as 'Ed,' supposedly for his money. A respite was granted. Their case has awaited the action of the Court of Appeals until last month, when it affirmed the action of the lower Court, and now they, too, have become resigned to their fate. They have been making model prisoners, giving Captain Black less trouble than any of the eight there now. Their cells are marvels of beauty, the walls of which have been decorated by them with pictures from magazines given them by visitors, and the center table and couch of each resembles a beautiful fairy's nest; cords of decoration and bunting are stretched in all directions, hanging from which are strings of pictures of beautiful women and children, all of which shows their minds to dwell on the brighter and purer side of life. Jim is married, while Charles is single. Both, however, make very little pretension toward religion. Charles is as black as a crow and in measurement has the longest reach of any man ever coming to this prison. Jim is black also, but not nearly so large as his handsome black brother."

ROCKEFELLERS INCOME \$140 A MINUTE

New York, May 30th.—John D. Rockefeller is now worth more than \$900,000,000, according to estimates published in the World today. The dissolution of the Standard Oil Company, it is said, has added more than \$100,000,000 to the value of the oil king's stockholdings in the past year. The newspaper's statisticians figure that his income is about \$60,000,000 a year, or more than \$140 a minute.

ABATTOIR AT MAYSVILLE

State Inspector Allen Gets After Local Slaughter Houses and Dairies

Maysville correspondent Lexington Herald.

State Pure Food Inspector R. M. Allen of Lexington and County Health Officer Dr. S. R. Harover of this city, this week inspected the slaughter houses of Mason county and declared that several of them were in an unsanitary condition, and not a fit place to slaughter cattle for market. While no drastic action was taken to eliminate the conditions, owing to there being no other available places for the killing of live stock, yet it was suggested to the butchers of this city that they get together and build an abattoir for that purpose. Acting upon the recommendation several of the parties interested have commenced to make a move in that direction. They have located an ideal spot to erect the buildings upon, and it now remains to get things in shape to form a company and have the necessary capital subscribed. By those in a position to know it is said that an abattoir in Mason county would be a paying investment.

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called absorption and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract, made from bloodroot, mandrake, stone, queen's root and golden seal and sold by druggists for the past forty years under the name of Dr. Pierce's Golden Medical Discovery, gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. It eradicates the poisons from the blood with this alternative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease. Dr. Pierce, founder of the Invalids' Hotel at Buffalo, N. Y., has received many letters similar to the following:

F. R. LUNGO, ESQ.

Mrs. FRED R. MUNRO, of Paradise, N. S., writes: "I take great pleasure in writing you as regards my case and its cure. In September I was taken with Typhoid Fever, which put me in a dreadful condition. I was weak, run down, nervous and was reduced to a mere skeleton. I had tried most everything I could get but nothing did me any good until, at last, I was advised to try Dr. Pierce's Golden Medical Discovery, and 'Pleasant Pellets,' which I did. Before I had used one bottle I saw a great improvement and when I had used this treatment two months, using only a few vials of 'Pleasant Pellets,' I returned to perfect health. I cannot find words to express my thankfulness for this wonderful medicine. I advise all sufferers to write to Dr. R. V. Pierce, as he cures when others fail."

Cold Soda For Warm Folks

Greenland's icy mountains are not colder than our Soda. A few degrees colder and it would be ice. That's why it cools warm folks off so rapidly; that's why it's the coolest Soda in the county. Coldness is not its only merit, though. It's as satisfactory for its flavor as it is for its cooling quality.

Studebaker Automobiles

Do You Want Your Money's Worth?

Flanders "20" Touring Car, \$800

The next time an automobile salesman tries to sell you a car at a discount, tell him that the old "something for nothing" story can't fool you.

The best automobiles in the world are sold for their list price, not a penny less. They are worth it. But the lame ducks, the second rates, the nondescript and assembled automobiles are in the public market looking for the highest bidder. Look out they don't get you. If gold-brick cars are not worth their list price, how much are they worth? Nobody knows. Cut price deals are frauds.

But if you want a car of one price to all and worth every cent of it, get either a Studebaker E-M-F "30," \$1100, or Flanders "20," \$800. You can trust them. You get all that you pay for, and that is more than you get with any other car at near their price. Studebaker guarantees them—that's the big reason. No matter what price temptation falls in your way, Studebaker E-M-F "30" and Flanders "20" cars are far bigger bargains, because in years of good service and satisfaction they pay big returns.

We can prove it—Send for our new catalogue

STORE ROBBED AT CONCORD

Two Brothers Were Arrested Here, Charged With the Crime

John and James Brannan were taken off a freight train at this point yesterday by Chief Ort on a phone message from Concord, charging them with having broken into and robbed Carr's store at that place.

They were placed in jail to await the arrival of Lewis county officials.
John is aged 20 and James 13. The latter is a bright boy, and said that Ansel Caseman, another youth, was the one who broke the window and entered the store, that he gave him a dollar and that was the extent of his part of the booty. John is a cripple and James said they were on route to Cincinnati to have him straightened. The boy's parents reside at Concord.

SAID SHE WOULD FAINT

Mrs. Della Long Unable to Stand On Her Feet More Than a Few Minutes at a Time.

Pendergrass, Ga.—Mrs. Della Long, of this place, in a recent letter, says: "For five or six years, I suffered agonies with womanly troubles. Often, I couldn't sit up more than a few minutes at a time, and if I stood on my feet long, I would faint. I took Cardui, and it helped me immediately. Now, I can do my work all the time, and don't suffer like I did." Take Cardui when you feel ill in any way—weak, tired, miserable, or under the weather. Cardui is a strength-building tonic medicine for women. It has been found to relieve pain and distress caused by womanly troubles, and is an excellent medicine to have on hand at all times. Cardui acts on the womanly constitution, building up womanly strength, toning up the nerves, and regulating the womanly organs. Its half century of success is due to merit. It has done good to thousands. Will you try it? It may be just what you need. Ask your druggist about Cardui. He will recommend it.

Miss Moore's School Recital

The Maysville School of Music gave its final of a series of recitals Thursday evening, May 30th, thus closing the academic year, which, from a numerical standpoint, has been successful, the enrollment showing some thirty-five pupils who have had lessons during the year.

The program lasted about one hour and one-half. The young pupils did themselves credit as well as the more advanced.
Miss Frances Dixon Ball played with repose and even execution the beautiful study, "Finer Twist," by Emery. Miss Julia D. K. played with clear tone and fluency "The Fountain," by Bohm, and a pleasing duet, "Bonnet," by Berger. Miss Jennie Zweigert was much complimented in the musical temperament displayed in the lovely cycle of "The Boreas," by Chopin, being especially well done, through "The Magic Flute," by Wagner. List was even more effective Miss Mary Alter Barbour displayed talent, fine technique and an unusually good tone in her rendering of "The Bubbling Spring," by Rink. Miss Nannie Tegar had a charm all her own and played brilliantly and with authority "Arabesque," by Lush. The ensemble numbers, including the duet, were brilliant and effectively played.

Miss Amy King varied the program by singing beautifully the great aria, "Delilah to Samson," by Saint-Saens, and the beautiful ballad, "O, Promise Me," by DeKoven.

A fine audience tested the seating capacity of the house and gave discriminating applause.

The gage marks 9.7 and falling.
